## PILOT IMPLEMENTATION

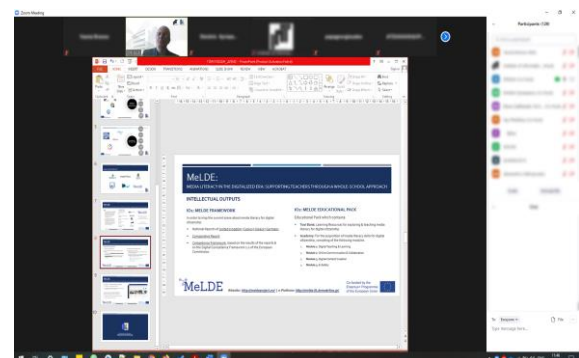

The implementation phase of the project aimed to deliver a training targeted to secondary school teachers, on selected topics according to their needs in order to develop their digital and media literacy skills.

All the partner countries (Cyprus, United Kingdom, Germany, Greece) organized the event using blended virtual learning activities (synchronous and asynchronous) due to the restrictions imposed by the COVID-19 pandemic.

## NATIONAL MULTIPLIER EVENTS

After the implementation of the project, a national multiplier event was organized in all partner countries with the aim of presenting all results achieved by the MeLDE project, and to exploit their use after the end of the project.

## THE FINAL MEETING

The Final Meeting of the project took place virtually in July 2021. Partners had the opportunity to discuss the feedback received from the pilot implementation in all the countries along with the final steps of the project.

We would like to thank everyone who participated and supported the MeLDE project!
